

battery SMC Networks SMCD3GNV xfinity®

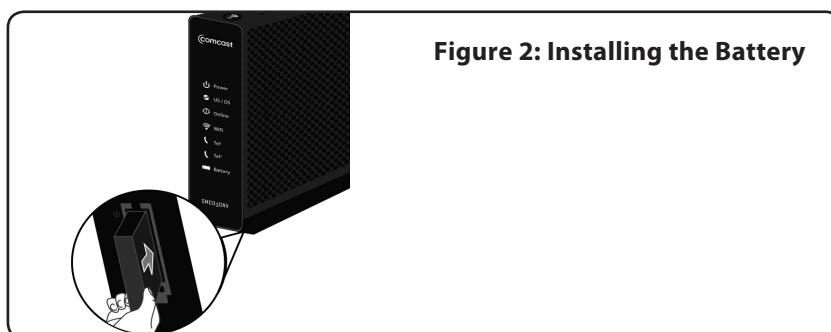

INSTALLATION AND REPLACEMENT

Enclosed is the battery that you requested for your Modem Gateway. The battery is easy to install as outlined in the instructions below.

1. Place the Gateway on its side on a table.
2. Remove battery compartment door on the bottom panel and set it aside (see Figure 1).

3. Insert the battery into the battery compartment (see Figure 2).
4. Close the battery compartment.

The battery can take up to 24 hours to recharge but your modem will be fully operational during this process.

Thank you!
