

XFINITY HOME SECURITY

Comcast
8000 East Iliff Ave
Denver, Colorado 80231

We would like to welcome you as a new customer of XFINITY Home Security!

Certain municipalities in Colorado require home security system users to obtain an alarm registration/user permit. It is your responsibility to comply with these requirements. **If you fail to do so, the municipality could delay or refuse to dispatch emergency personnel and/or assess you fines.**

As a courtesy, we have compiled the requirements for some areas that require an alarm registration/user permit on the reverse side of this letter. This list is not exhaustive and you should confirm registration requirements with your municipality.

Once you receive your permit (where required), please login to the subscriber portal at www.xfinity.com/xhsportal; go to the **Security** menu, select "**Emergency Dispatch Setup**" and enter your permit number along with the expiration date at the bottom of the page.

Please contact your local municipality with any questions regarding alarm registration and user permits.

Thank you,

XFINITY Home Security Team
1-800-XFINITY

XFINITY HOME SECURITY

County	City	Details
Arapahoe County	Cherry Hills Village	<p>Security Alarm users are required to register the system with the Cherry Hills Village Police Department. Attn: Dan

January 1, 2011

Dear Permit Holder:

THE CITY OF ASPEN
ASPEN POLICE DEPARTMENT

Enclosed you will find an invoice for your 2011 permit fee.

With the start of the New Year, the Aspen Police Dept. would like each permit holder to re-read the alarm permit information that is stated below and make any necessary changes to their permit information. Such changes can include, no longer having a security system, you sold the property, change in your security company or contact information. If you need to make changes you can do so by filling out and returning the enclosed application/change of information form, by calling, or sending an e-mail.

If there are no changes, you can return the blank application/change of information form with your payment. (The blank application can be used again) If you have sold the property, the alarm permit cannot be transferred to the new owner.

Please note that we will charge for false alarms. If you have defective equipment and need to have it repaired please contact your service provider. Be sure your employees know how to properly use the alarm system. Please keep your system running smoothly.

The fees this year are:

Annual alarm fee is \$114.00 and is effective January 1 through December 31, 2011, pursuant to City Ordinance 10.04.010, Section 2.12.050(b);

First false alarm per year is \$118.00;

Second false alarm per year is \$237.00;

Third and fourth false alarms per year are \$358.00;

False alarms for Banks are \$380.00;

Late fees: \$12.00.

Any emergency alarm system which has four (4) or more false alarms within a permit year shall be subject to permit revocation, pursuant to Code 10.04.080.

Emergency Response Personnel will only respond to an alarm if the owner has complied with the City of Aspen Municipal Code 10.04.020. Alarm Users Permit. Please be advised that we have instructed your alarm company to provide the emergency operator with a valid permit number when requesting a response from Emergency Response Personnel. Emergency operators for Aspen/Pitkin County Combined Communications will promptly dispatch personnel to a corresponding address for those alarms that are properly identified by a valid permit number. As usual, Emergency Response Personnel will continue to respond promptly to those crimes, fires or medical emergencies that are verified and reported by an individual on scene.

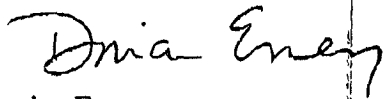

In addition to not responding to alarms without a permit, please remember that Emergency Response Personnel will not respond to "Tamper" or "Trouble" alarms or requests for

"Identification Checks" for alarms. Your alarm company should address these issues without a police response.

This is an operational change, not a change in City Code or Policy.

Please feel free to contact me at 970-429-1856 from 8:00 a.m. to 5:00 p.m., Monday through Friday, should you have questions or need clarification.

Sincerely,

Dorian Emery
Director of Alarm Operations
Aspen Police Department

Memorandum

TO: Installers of Fire Dept. Key Lock Boxes

FROM: Fire Prevention

DATE: August 1, 2006

RE: Installation locations

In an effort to standardize key lock box locations and assure that they are visible and unobstructed the following specifications shall be used.

The box shall be mounted in a location clearly visible from the street or driveway and adjacent to the entry door that leads directly to the Fire Alarm Control Panel or Remote Annunciator.

The box shall be mounted not less than 42 inches and not more than 54 inches above floor level.

Please contact Fire Prevention when the Lock Box is installed at 871-8216 to schedule a time for the key to be locked in the box..

Lock boxes can be purchased from your alarm contractor or get a form from Fire Prevention to order them direct from the manufacturer.
